Portfolio

EDUCATION

- **2021:** Bachelor of Engineering (BE), Computer Engineering, Savitribai Phule Pune University, Marathwada Mitra Mandal's College of Engineering | CGPA: 7.46
- **2017:** Higher Secondary Certificate (HSC) Maharashtra Board, New English School and Junior College Ramanbag | 67.69%
- **2015:** Secondary School Certificate (SSC) Maharashtra Board, A.W. Sindhu Vidya Bhavan | 81.80%

CORE COMPETENCIES

- Mobile Application Development
- User Experience Design
- Software Architecture
- Agile Methodologies
- Cross-Platform Development
- Cloud Computing Solutions
- Database Management
- Project Management
- Quality Assurance Practices
- Client Relationship Management

IT SKILLS

- **Languages:** Android Studio (Java & Kotlin), Flutter(Dart), ReactJS, NodeJS
- **Databases:** MYSQL, MongoDB, Firebase, REST APIs

PROFILE SUMMARY

- Offering **4 year of diverse experience** in the IT industry, focusing on mobile application development with a specialization in Android and Flutter, consistently delivering exceptional software solutions.
- Working as a **Senior Software Engineer at Digichorus Technologies Pvt. Ltd**., directing the development of mobile applications and working closely with cross-functional teams to achieve project objectives and enhance client satisfaction.
- Developed a comprehensive skill set encompassing **mobile application architecture**, user interface design, and backend integration, with a strong emphasis on creating efficient and scalable solutions.
- Directed the creation of the **E-KYC module**, effectively integrating machine learning algorithms for **Optical Character Recognition (OCR) and Machine Readable Zone (MRZ)** verification, significantly improving the KYC process for clients.
- Maintain extensive knowledge of mobile application lifecycle management, guaranteeing compliance with best practices in **coding, testing, and deployment processes.**
- Spearheaded the development of a **corporate and retail mobile banking application** for **Doha Bank**, leveraging Flutter to create a seamless and user-friendly banking experience.
- Demonstrate a comprehensive understanding of **cloud-based solutions and RESTful APIs**, enabling smooth integration of mobile applications with backend services.

WORK EXPERIENCE

Software Engineer | Digichorus Technologies Pvt. Ltd., Location | July'23 – Present
Key Result Area:

- Working as a **Senior Software Engineer (Android Developer),** leveraging Kotlin, and Flutter for mobile application development, while utilizing React for creating responsive websites.
- Designing and developing **scalable software solutions** to meet client requirements and enhance user experience.
- Collaborating with **cross-functional teams** to analyze project specifications and translate them into technical designs and implementations.
- Implementing best **coding practices and conducting** code reviews to ensure high-quality software deliverables.
- Troubleshooting and **resolving complex software issues**, improving application performance and reliability.
- Participating in **Agile ceremonies, including sprint planning**, daily stand-ups, and retrospectives, to foster team collaboration and continuous improvement.

PREVIOUS EXPERIENCE

Android Developer | Neutrino Tech Systems| Apr'21 – Jun'23

INTERNSHIPS

Web Developer Intern | Bharat Electronics Ltd. | July'20 – August 9, 2020 (1 month)
- Enhanced the local server infrastructure by implementing web development solutions, contributing to improved operational efficiency.

Android Developer Intern | Padaayi, Andhra Pradesh | MaY'20 – July'20 (2 months)
- Developed Android applications aimed at teaching Bharati script to Marathi users and created an interactive quiz app, enhancing user engagement and educational outreach.

Android Developer Intern| Marathwada Mitra Mandal's IMERT and TRTI, Pune | Jan'19 – Feb'20 (1 month)
- Designed and developed Android applications to improve the livelihoods of tribal community members, addressing specific local needs.

ACADEMIC ACHIEVEMENTS

- Led the team to **victory as House Captain**, securing the house trophy for the year.
- Developed and **launched websites** for both school and college, enhancing online presence.
- Received the **Durga Devi Trust Scholarship** for outstanding academic performance in classes 8, 9, and 10.
- Competed as the goalkeeper on the school football team, demonstrating teamwork and athletic skill.
- Organized and coordinated **Code Mania 2K19,** contributing to a successful event and engaged in hands-on sessions.

SOFT SKILLS

- Communication
- Problem-Solving
- Leadership
- Time Management
- Team Player

PERSONAL DETAILS

- **Date of Birth:** 8th May, 1999
- **Languages Known:** English, Marathi Hindi
- **Address:** A-602 Royal Park, Balewadi, Pune – 411045

Android Developer Intern | Sandat Services Pvt. Ltd., Pune| Dec'19 – Jan'20 (1 month)
- Successfully completed assigned modules on time for the project titled "Swabhiman India," contributing to the development of impactful mobile solutions.

PROJECTS

Senior Software Engineer | Digichorus Technologies Pvt. Ltd., Location | July'23 – Present
Project Name: Retail Banking Application (Doha Bank)   **Duration:** September 2025 - Ongoing
Technologies: Flutter
Responsibilities:
- Spearheaded the development of the application.
- Creating a retail mobile banking application for Doha Bank.

Project Name: Corporate Banking Application (Doha Bank)   **Duration:** July 2024 - Ongoing
Technologies: Flutter
Responsibilities:
- Spearheaded the development of the application.
- Creating a corporate mobile banking application for Doha Bank.

Project Name: E-KYC Module   **Duration:** July 2023 - Ongoing
Technologies: Kotlin (Android)
Responsibilities:
- Conducted extensive research on various E-KYC providers to inform application development.
- Developed the mobile application, focusing on implementing machine learning modules for OCR and MRZ recognition.
- Integrated a database system to verify user data for KYC compliance.

Android Developer | Neutrino Tech Systems. Location | Apr'21 – Jun'23
Project Name: N-Cash   **Duration:** October 2021 - October 2022
Client Name: RocketFlyer
Location: Gurgaon
Technologies: Kotlin (Android)
Responsibilities:
- Monitored the entire project development lifecycle, from conception to deployment.
- Developed an Android application for tax management, providing users with tax-saving strategies and expense tracking to optimize savings.

Project Name: Rocketflow   **Duration:** October 2021 - May 2023
Client Name: RocketFlyer
Location: Gurgaon
Technologies: Kotlin (Android)
Responsibilities:
- Revamped and updated the existing project to enhance functionality and user experience.
- Enabled enterprises to automate business processes and perform real-time actions through the application.

Project Name: Rocketfleet   **Duration:** October 2021 - May 2023
Client Name: RocketFlyer
Location: Gurgaon
Technologies: Kotlin (Android)
Responsibilities:
- Updated and enhanced the existing vehicle rental application to meet client-specific needs.
- Streamlined functionality to improve user interactions within the application.

Project Name: InteliDoc   **Duration:** April 2021 - June 2023
Client Name: Neutrino Tech Systems
Location: Pune
Technologies: Kotlin (Android)
Responsibilities:
- Developed an Android application focused on the medical field to assist patients in managing their documents.
- Created a system for maintaining user records and generating reports, optimizing document handling in healthcare.
